Exam	Situational Judgement Test *Demo
Total Score	7
Confidence Band	6 - 9
Percentile Rank	70
Score released to the following schools:	<ul style="list-style-type: none"> School #2 School #1

Understanding Your AAMC SJT Score Report

This is not an official AAMC Situational Judgment Test (SJT) score report. It is provided for your information only. The AAMC will send your official AAMC SJT score report to the school(s) you select to receive it (see above).

The Total Score is reported on a scale that ranges from 1 to 9.

Similar to all standardized exams, a score on the AAMC SJT exam is not perfectly precise. A score can be affected by many factors. The Confidence Band marks the range in which your "true score" likely lies and is intended to discourage distinctions between examinees with similar scores.

Percentile Rank is the percentage of examinees who received the same or lower score than you did.

For voided exams:
