2026 Work and Activities Guide for Applicants

This guide reviews the Work and Activities section of the American Medical College Application Service® (AMCAS®) application for the 2026 cycle and provides instructions for entering "Completed" and "Anticipated" experience hours. Information for first-time applicants and reapplicants, as well as examples, are included.

Overview

The Work and Activities section is designed to give applicants the opportunity to include any work or extracurricular activities that they would like to bring to the attention of the medical schools where they are applying. Applicants can add up to fifteen (15) entries and will be prompted to summarize each experience in 700 characters.

Applicants are asked to identify up to three (3) experiences that they consider the "most meaningful." If applicants have two or more entries, they must identify at least one as the most meaningful. When considering which experiences are the most meaningful, applicants might consider the transformative nature of the experience: the impact they made while engaging in the activity, what they learned, and the personal growth they experienced as a result of their participation.

Applicants may also separately list experiences they have not completed yet and indicate the number of hours they anticipate spending on these activities.

Work and Activities for the 2026 Application Cycle

The Work and Activities section of the AMCAS application enables both "Completed" and "Anticipated" experiences and related hours to be recorded separately. This feature allows applicants to distinguish previous, ongoing, and planned new activities in their applications.

Within the Work and Activities section of the AMCAS application, applicants will see separate data entry sections for "Completed Hours" and "Anticipated Hours."

Guidance for Work & Activities Entry

- You can add up to 15 entries
- You will need to enter the start and end date for each experience

Completed vs. Anticipated Work/Activities

Note: "Current month" in the instructions below is defined as of the month/year that you complete and submit your application.

- **"Anticipated"** experiences are activities that you have not yet started but plan to participate in; they will begin after you have submitted your application
  - An "Anticipated" activity could be:
    - An entirely new future experience
    - An upcoming, planned experience that is a continuation of a "Completed" experience
  - An "Anticipated" activity cannot have a date in the past – the start date must be the current month* or later and the latest end date can be August of the matriculating/following year (August 2026)
  - Note:
