Since 2014 U of L SOM has served as the nation’s premier site for training future physicians on the unique healthcare needs of people who are lesbian, gay, bisexual, transgender, gender nonconforming, or born with differences of sex development, based on medical education competencies from the AAMC. While some educational models dissociate this content from the rest of the curriculum (e.g., in elective or stand-alone learning opportunities), we integrate this information throughout the curriculum. We believe that a competent physician must be skilled in the care of all patients within the community and able to approach each patient with sensitivity, compassion, and the knowledge necessary to promote health and wellness. <td>Harvard Medical School</td>
<td>Since 2011, the Office for Recruitment and Multicultural Affairs (ORMA) has been providing individual support, career guidance, and leadership development opportunities to LGBTQIA+ medical students as well as the student club, LAHMS. Harvard was one of the first medical schools to allow students to self-identify on the secondary application and our numbers of students in the first year class have steadily grown to 15% LGBTQIA+ in the Class of 2023. We have advisors skilled in counseling and mentoring LGBTQ students. Recently, HMS received a grant to overhaul the curriculum to include Sexual and Gender Minority Health Equity. This work is spearheaded by a team of faculty, fellows, students, and staff. There are also more than 300 LGBTQIA+ faculty and allies on the longstanding HMS “OutList” who are available for mentoring, research, and clinical care opportunities. Harvard is proud to be a leader in ensuring our LGBTQIA+ students both succeed and thrive.</td>

<td>Tufts University School of Medicine</td>
<td>In addition to the supports that the OSA gives to all students, TUSM has an Office for Multicultural Affairs (OMA) that specializes in directly supporting gender and sexual minority students. The OMA helps to assess and direct school resources tailored to the individual needs of students and also actively creates inclusive and supportive spaces for students to convene, share and advocate. An example of an advocacy space and support system for gender and sexual minority students is the Multicultural Fellows Council – a student advisory group to the OMA that meets monthly to share, assess and discuss the needs of students from all backgrounds and identities to improve inclusion and equity along the spectrum of the student experience. The Biomedical Queer Alliance (BQA) is a specific form of support for gender and sexual minority students at the peer to peer level.
