| NY         | SUNY Downstate Health Sciences University College of Medicine |                        |       | Required                 | General or Inorganic Chemistry 1 & 2 including labs* (8 credits) & Organic Chemistry 1 & 2 including labs (8 credits)  *If your college/university offers an intensive one-semester general or inorganic chemistry course with lab for qualified students, and considers this equivalent to the traditional two-semester course, you may use this to satisfy our requirement for general chemistry. However, you should also take a higher level chemistry course, preferably Biochemistry. In addition, you should indicate in the prerequisite section on the Supplemental Application that the one-semester course is an advanced general or inorganic chemistry course, and upload a copy of the catalog description or a letter from the Department of Chemistry verifying this to your admissions portal. Remember to include your name and AMCAS ID on any communication with us. |                 |      | ownstate.edu/<br>education-<br>training/stude<br>nt-<br>services/admi<br>ssions/policie<br>s.html | education-<br>training/colleg<br>e-of-<br>medicine/ad<br>missions/adm<br>issions-<br>requirements.<br>html | ownstate.edu/<br>education-<br>training/stude<br>nt-<br>services/admi<br>ssions/policie<br>s.html |                     |
|            |   | Composition & Rhetoric |       | Required                 | In general, the Committee does not accept English courses taken abroad to fulfill the English admission requirement. Courses which have the English department prefix are accepted to fulfill the English requirement. If you have an interdisciplinary course or if your college or university accepts other courses to fulfill writing or English requirements, if accepted, please upload a scanned letter from your college stating this information to your admissions portal. Remember to include your name and AMCAS ID on any communication with us.   | 6               | 8    | <b>⊘</b>  |  | <b>⊗</b>  | ✓                   |

: Yes : Case-by-Case Required Texas Tech Biology BIOL Courses taught in the departments of an 14 University Health undergraduate institutions typically regarded as Sciences Center biological in nature. The 14 hrs. include 2 hrs. of Paul L. Foster lab. AP credit is only accepted if the school School of Medicine granting the credit lists the specific courses and number of units granted per course on an official transcript. 8 X Chemistry CHEM Required Courses taught in the chemistry, organic chemistry, and/or biochemistry departments of an undergraduate institution. The 8 hrs. include 2 hrs. of lab. AP credit is only accepted if the school granting the credit lists the specific courses and number of units granted per course on an official transcript. X BIOL Recommended X Genetics Literature **ENGL** Required Any course that fulfills a general education 6 English requirement of a baccalaureate degree will be accepted. Reading or writing intensive courses taught in the Humanities may also be considered. English Rhetoric (Does not include speech) Literature Composition AP credit is only accepted if the school granting the credit lists the specific courses and number of units granted per course on an official transcript. ENGL Required Any course that fulfills a general education X Literature English requirement of a baccalaureate degree will be accepted. Reading or writing intensive courses taught in the Humanities may also be considered. AP credit is only accepted if the school granting the credit lists the specific courses and number of units granted per course on an official transcript. X X Molecular Biology BIOL Recommended As well as Cellular Biology **Physics** PHYS Required Courses taught in the physics departments of an 8 undergraduate institution. The 8 hrs. include 2 hrs. of lab. AP credit is only accepted if the school granting the credit lists the specific courses and number of units granted per course on an official transcript. Statistics MATH | Required Courses taught in the mathematics and/or 3 X X statistics departments of an undergraduate institution. AP credit is only accepted if the school granting the credit lists the specific courses and number of units granted per course on an official transcript.

Course-required labs are defined as lab courses that are required to complete a given course as offered by the institution. If a course does not have a required lab component, students are not required to take an additional lab to meet SFESOM requirements. If students are unsure if a course in question has a required lab, it is recommended to contact an academic advisor within their institution. |                 |          |               | AP Chemistry credit earned with a score of 4 or 5 can fulfill one (1) semester of general chemistry. AP Chemistry credit must be posted on the official transcript in order to be counted. |                  |                     |
|       |  | Physics      | PHYS  |                          | Two (2) courses with all course required labs. Course-required labs are defined as lab courses that are required to complete a given course as offered by the institution. If a course does not have a required lab component, students are not required to take an additional lab to meet SFESOM requirements. If students are unsure if a course in question has a required lab, it is recommended to contact an academic advisor within their institution.  |                 | <b>⊗</b> | <b>⊘</b>      | 8  | •                | <b>⊘</b>            |
